

SPORT PROTECTION

Adjustable temple tips

With just a click the temple can be interchanged with the supplied elasticated strap.

Easy lenses assembling

You can open the ocular shape with a screw and simply insert the lens into the frame.

High quality

We supply the frame with Plano Polycarbonate Lenses with an index of 1.59.

Protection and Comfort

The soft-touch rubber inserts on the inside of the frame front and on the inside of the temples ensures a perfect fit with maximum impact resistance. Furthermore, ocular Design enhances performance to prevent fogging.

Assembly

To allow the lens to be inserted into the frame you simply use a screw to easily open the ocular shape of the frame.

Double function 1 + 2

This frame can be worn with either temples that have adjustable temple tips or with just a click they can be interchanged with the supplied elasticated strap.

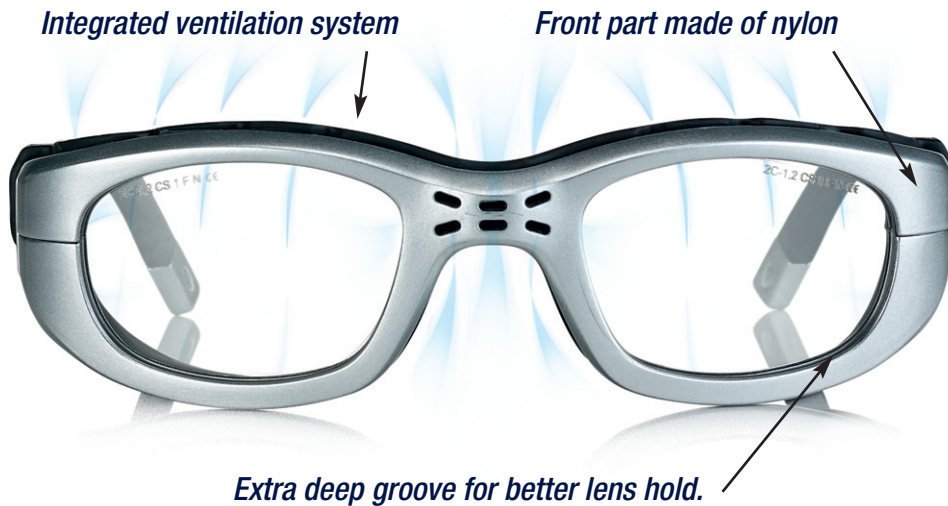

From 1 to 2 just in one click!

1 Frame with adjustable temple tips

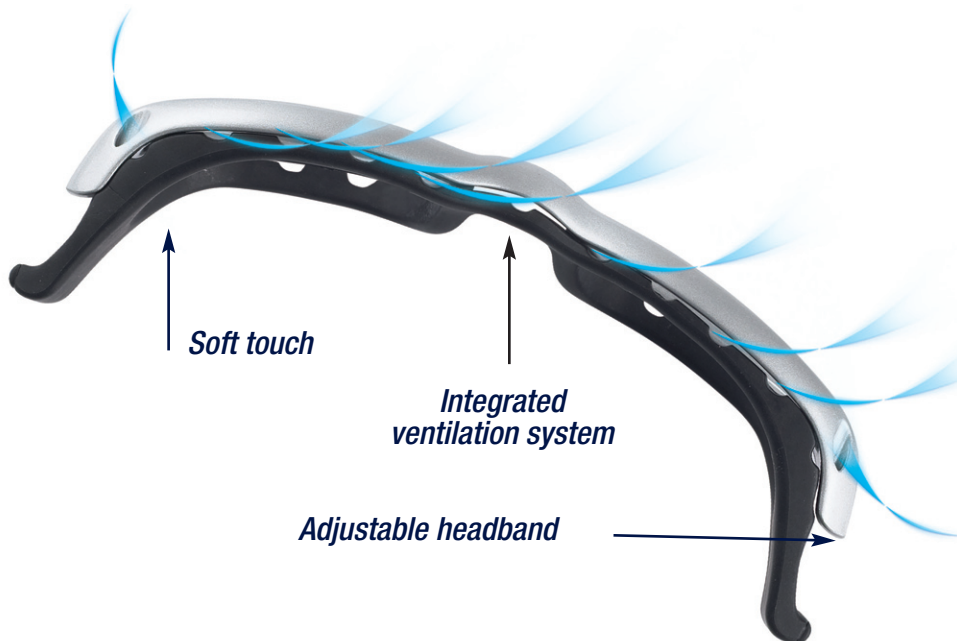

2 Frame with elasticated strap

Ventilation System and Anti-Fog Treatment

The integrated ventilation system combined with the anti-fog treatment on the plano lenses reduces fogging.

Protection and comfort

The frame made of nylon and the oculars made of polycarbonate make the frame safe and shock resistant. The soft touch rubber inserts on the inside of the front provide a perfect fit.

Certification

The sports frame is an individual protection product category 2° according to the Regulation (EU) 2016/425 and the standard EN 166:2001.

Tests

The tests, carried out by Certottica, demonstrate that the **frame has guaranteed appropriate mechanical protection** as it **protects the wearer** from small objects at high speed and low energy impact during sports activity. The test has also shown that the ocular **offers good performance** as it has **antifog resistance**.
